

DEGREZZO -DA 201

POWERFUL DEGREASING AGENT

Cleaning and degreasing treatments are one of the most crucial factors in fabrication and coating industry. Effective degreasing of components directly affects important parameters like corrosion resistance, topcoat and primer adhesion and overall performance of the end products.

Considering condition of metal, presence of grease, oils and soils and end use of the product on the field, use of **DEGREZZO -DA 201** as degreasing agent can be the best option for better function of coatings done on the product.

Formulated by Altron Chemicals, **DEGREZZO -DA 201** is a powerful cleaner designed to remove a wide range of soils including oils, grease and grime from any sheets, Vehicle bodies as well as chassis.

BENEFITS of **DEGREZZO -DA 201**

- Removes oil, grease and dirt
- Ideal for cleaning surfaces before applying any type of coating to vessels, Chassis and components to be coated
- Effective formula ensures rapid penetration of stubborn deposits at economical dilution rates.
- Contains water softeners and soil suspenders to remain effective even in areas with hard water
- Suitable for manual as well as pressure washer application
- Can be used to clean the grease , mud and crude from tools and equipments

APPLICATION INSTRUCTIONS

- 1) Dilute 1 part of Degrezzo da201 with 9 parts of water.
- 2) For better performance mix with hot water maximum upto 60°C
- 3) Apply thoroughly to ensure total coverage
- 4) Wait for 2 minutes to penetrate into the grease and dirt
- 5) Rub the surface to remove deposits
- 6) Do not allow to dry onto surfaces
- 7) Rinse thoroughly with clean water

PRECAUTIONS

Avoid Spilling, Skin and eye contact. Wear suitable protective clothing, gloves and eye/face protection.

STORAGE PRECAUTIONS - Store in tightly closed original container in dry and cool place

TECHNICAL DATA

APPEARANCE : Liquid
COLOUR : Florescent Yellow
ODOUR : Mild
pH value : 9
RELATIVE DENSITY : 1.02

AVAILABLE PACKING SIZE

1 litre, 2 litre, 20 litre

HEALTH AND SAFETY

Keep away from pets and children

NOTE : - Confirm 100% degreasing by conducting "continuous water film test" over the surface.
